LEUKOCARE´s QM System Passes Surveillance Audit Successfully

Munich, Germany, 08.12.2011

LEUKOCARE's quality management system (QMS) has passed the annual surveillance audit by DEKRA successfully. We are very proud to announce that no minor nor major non-conformities were identified by the auditors. Thus, our QMS fully complies with the relevant standards of ISO 13 485 and ISO 9001.

The audit confirmed LEUKOCARE's quality oriented and customer driven business ethics. Our partners can trust that all results originating from LEUKOCARE's laboratories are elaborated and documented with highest quality standards and can easily be incorporated into regulatory processes.

Moreover, LEUKOCARE is currently preparing a Drug Master File for its Stabilizing and Protecting Solutions (SPS) to be filed with the US Food and Drug Administration (FDA) in 2012. Partners and licensees of LEUKOCARE's SPS technologies will be able to reference to this file in order to ease the approval of their products employing SPS.
